RISK WARNING AND DISCLAIMER

Wealth Generators will not accept liability for any loss or damage, including without limitation to, any loss of profit, which may arise directly or indirectly from use of or reliance on such information.

Trading foreign currencies is a challenging and potentially profitable opportunity for educated and experienced investors. However, before deciding to participate in the Forex market, you should carefully consider your investment objectives, level of experience and risk appetite. Most importantly, do not invest money you cannot afford to lose.

There is considerable exposure to risk in any foreign exchange transaction. Any transaction involving currencies involves risks including, but not limited to, the potential for changing political and/or economic conditions that may substantially affect the price or liquidity of a currency.

Moreover, the leveraged nature of FX trading means that any market movement will have an equally proportionate effect on your deposited funds. This may work against you as well as for you. The possibility exists that you could sustain a total loss of initial margin funds and be required to deposit additional funds to maintain your position. If you fail to meet any margin call within the time prescribed, your position will be liquidated and you will be responsible for any resulting losses. Investors may lower their exposure to risk by employing risk-reducing strategies such as "stop-loss" or "limit" orders.

We do not take any responsibility for any losses/profits you make. You trade at your own risk. SIGNALS DISCLAIMER STATEMENT:

Wealth Generators services are speculative trading techniques designed to buy and sell margined FX contracts. No claims as to past, present or future profitability of these signal services or other Wealth Generators methods are made, and there is no guarantee that our system and techniques will provide any profits to traders using the system and techniques, and indeed may cause such traders to incur losses.

All signals generated are provided for educational purposes only. Any trades placed upon reliance on signals are taken at your own risk for your own account. Past performance is no guarantee of future results. While there is great potential for reward when trading margined FX, there is also substantial risk of loss. You must decide your own suitability to trade.

Future trading results can never be guaranteed. This is not an offer to buy or sell currencies, futures, options or commodity interests. The signals generated by Wealth Generators and/or transmitted to client account are based on historical formulas which have worked in the past. However, what has happened before may or may not happen again. You can lose all your money trading forex and you must decide your own suitability as to whether or not to trade. Only trade with true risk capital you can afford to lose. Only trade markets you can properly afford to trade. Properly funded trading accounts typically perform better than those that are not.
